

Moneta.

Proactive Safety Management

Transforming Safety Culture

Employees & Administrators
anonymously submit safety
reports to prevent accidents
before they occur

Saves **time**, **money**, and
potentially **lives**

AI-Powered Safety

Innovative AI classifies near-miss
reports using the hallmarks of
High Reliability Organizations

Customizable for your
organization's needs

Simple User Interface

Access real-time analytics for
up-to-date safety management
insights in one click

Streamlined design for
effortless navigation for all

Proven Success

Moneta clients report improved workplace safety culture in only a few months of implementation

First software to use AI to classify reports using HRO principles and customizable Hazard Classifications
